**Subject:** RE: NMP Risk Assessment Comment Period

Markk,

Sorry for the confusion. January 6 was the original deadline for comments, and now it has been extended to January 21. Unfortunately, regulations.gov has not been updated and still shows the January 6 date. We hope the change will be done soon, so that it is clear that the deadline for comments is January 21.

Thank you for checking and Happy New Year,  
Ana

**Subject:** NMP Risk Assessment Comment Period

Hello Ms. Corado,

Not sure of your holiday schedule so I don't know when you'll be seeing this, but I wanted to confirm the deadline date for comments on EPA's Draft Risk Assessment for NMP. According to information on the following link, the date is now Jan 21, 2020: <https://www.epa.gov/assessing-and-managing-chemicals-under-tsca/risk-evaluation-n-methylpyrrolidone-nmp-0>.

Other EPA sites still list the closing date as Jan 6. Can you confirm for me which is accurate?

Many thanks and Happy New Year,

Markk
